

RIM OF THE PACIFIC

2024 Medical Symposium

Theme

Tyranny of Distance: Closing the Gap

Objective

To foster global cooperation among military medical professionals in addressing operational medical challenges in the maritime domain.

Vision

To unite militaries across the RIMPAC medical community in a collaborative effort to conquer the formidable challenge posed by remote maritime environments. Through knowledge exchange, innovation, and shared expertise, we aim to strengthen the healthcare capabilities of naval forces.

Details:

1 – 2 July 2024

Sharkey Theater, Joint Base Pearl Harbor Hickam

Presentations include:

- Senior Enlisted Panel on Prolonged Casualty Care
- Patient Connectors: The Need for Amphibious Aircraft
- Burn Casualty Care at Sea
- Preventive Medicine in the Indo-Pacific: Then and Now

Poster Presentations

This year's symposium will also feature poster presentations from U.S., Ally, and Partner Nations on medical initiatives within their respective services in an effort to share advancements in military medical care in service to the warfighter.
